## EXECUTIVE CANDIDATE PROFILE

*A dynamic technology executive specializing in driving digital transformation for maximum performance and value creation. With a focus on enterprise leadership at the intersection of business and technology, they leverage trusted partnerships and strategic initiatives to enable sustainable growth. They possess a strong track record of executing complex technology strategies and have accumulated 30 years of in-depth experience in managing all aspects of enterprise information technology.*

*The executive's expertise lies in designing cost-effective solutions through technology rationalization and modernization while aligning technology portfolio investments with the organization's priority business needs. Their comprehensive experience includes the holistic design and implementation of technology solutions to support growth, scalability, and financial optimization. With 12 years of successful collaboration within executive leadership teams, this executive is well-positioned to drive digital transformation, enhance business performance, and unlock new value opportunities.*

### ■ Recognition / Achievements

- *Led the technology track in a \$4 billion divestiture, establishing new business services and an IT organization within the \$100 million divestiture target. They then spearheaded the digital transformation, modernization, and optimization of the divested company's enterprise processes and systems to enable the new company operating model and ensuing revenue growth from \$4 billion to \$7.2 billion. As a result of the transformation and modernization, achieved annual technology cost savings of 23% (\$6.2 million)*
- *Integrated three acquisitions (>\$3B revenue, >10K employees) into this same modernized business system architecture with full cost absorption.*
- *Led the transformation of the current operating model for the Cloud subscription business from IaaS/Hybrid SaaS in global private clouds to SaaS offerings in global public clouds while executing a 9.8% margin improvement.*
- *Led the Portfolio Management Office during a 3-year optimization of the enterprise Project & Technology Service portfolios (\$50M+, \$100M+ respectively) resulting in a \$35M operating cost reduction while transitioning enterprise business services to a shared service center model.*

### ■ Education / Designations

- *Master of Business Administration*
- *Master of Science in Computer Science*
- *Bachelor of Arts in Computer Science and Mathematics*
- *Certifications: CISSP, PMP, CISA, CGEIT, ITIL, AWS*
- *Secret Security Clearance*
